

# HOUSING ACCELERATOR FUND

The Housing Accelerator Fund will help the City continue its work on ensuring that everyone, regardless of need, can find a place to live in Delta. These 7 initiatives focus on opening up new possibilities for more diverse types of housing, to help Delta work towards addressing its housing need. More diverse housing will provide opportunities for existing residents to age-in-place, young families to join the community, and first time buyers or renters to have a place of their own.

**SPEED**
